## CONCEPT STATMENT

The Florin Chair boasts a sturdy hardwood frame with a creamy brown stain, showcasing its timeless durability. While the current upholstery and foam cushion are worn, they will be replaced to enhance both comfort and aesthetic appeal. The updated upholstery will feature a warm vanilla textured fabric by Sunbrella, giving the Florin Chair a modern yet versatile look that appeals to a broader audience.

## HISTORY

This chair draws inspiration from various historical designs. Its carved wooden frame and upholstered pattern reinterpret traditional styles, often reminiscent of brocade or jacquard motifs. The curved backrest and rolled arms are classic features commonly found in parlor chairs from the Victorian and Edwardian eras, designed for formal settings. The legs showcase carved, curved detailing, reflecting influences from traditional European styles such as Chippendale and Rococo.
